ASCENT™ II
Macerating Toilet System

Featuring RazorCut™ Technology
IST™ Switch Sensing and
CleanConnect™ Seal

The complete system for convenient addition of a bathroom in remodeling projects and additions. Powerful macerating system pumps waste to existing sewer lines in the building or home – *up to 25’ high and 150’ horizontally. Accepts additional lavatory and tub/shower connections for a complete bathroom anywhere!

*Horizontal distance can vary with amount of vertical pumping head. Consult factory for additional sizing and performance information.

Performance
Powerful and quiet, the RazorCut™ system with stainless steel blades provides superior cutting compared to other macerating toilets.

Appearance
Clean, compact and modular. The CleanConnect™ seal system eliminates unsightly rubber couplers for connecting the toilet to the macerator unit. Rear exiting discharge and vent connectors conceal piping when exiting directly to a wall.

Serviceability
Designed with a removable access cover, the Ascent™ II is completely serviceable without removing the macerating unit from the toilet or disconnecting plumbing!

Functionality
LEDs inform of power ON, alarm condition or low battery condition. Touchpad buttons allow manual by-pass operation of the unit and alarm silencing.

Toilet complies with ADA standard ICC/ANSI A117.1 and CSA B651.
Toilet IAPMO Listed ASME A112.19.2/CSA B45.1
Toilet EPA WaterSense Listed for 1.28 gallon per flush (gpf) requirements

Macerator CSA Certified and IAPMO Listed to ASME A112.3.4 and CSA B45.9.

innovate. evolve.
Macerator Features

- RazorCut™ system features heavy-duty stainless steel blades
- Advance run technology assures macerator blades are running prior to debris entering the cutter basket
- IST™ intelligent switch technology provides for complete flush-out of debris in the cutter area reducing potential clogging and jamming
- Solid state electronic switch system provides intelligent data for system operation and eliminates older style mechanical or diaphragm switches
- Auxiliary inlets on each side of unit allow for connection of a lavatory and/or shower. White couplers. Accepts 1-1/2” or 2” pipe
- Built-in alarm with 9-volt battery backup and push-to-silence switch
- LEDs inform of power ON, alarm condition and low alarm battery
- Contoured tank design allows for wall molding to run behind macerator unit!

Horizontal or Vertical Piping?

QuickFlip™ discharge and vent connectors allow for horizontal or vertical pipe connections. Simply unscrew the connector and rotate 180 degrees for optional connection. Heavy-duty connectors are PVC solvent weld type
- 1” discharge with integral check valve (can be reduced to 3/4”)
- 1-1/2” vent

Cord management system allows for hidden storage of excess power cord under the cover. No more cinched or twist-tied cable loops hanging outside the system! An 8’ white power cord is provided. Cord can be routed under the cover to exit either the left or right side!

Removable Service Panel

Removable service panel on top cover provides easy access to system without removing plumbing or disconnecting the macerator from the toilet. No tools required.

RazorCut™ system is accessible for cleaning or blade replacement. Safety shut-off automatically disconnects electrical power when access cover is removed.

IST™ Intelligent Switch Technology

The Ascent™ II features solid state switch technology. Strategically located sensors activate the pump and alarm eliminating the need for troublesome diaphragm or mechanical float switches.

LED display:
Power ON • Alarm condition • Low battery condition

Functional touchpad on top of unit features:
- Push-to-Run override – allows manual run of the macerator overriding the IST™ switch
- Push-to-Silence switch – silences the alarm
CleanConnect™ Seal eliminates unsightly rubber accordion style couplers and hose clamps for connection of toilet to the macerator unit! Simply slide the macerator unit with a robust integral seal onto the hub of the toilet. Macerator sits closer to toilet for a more professional appearance!

Toilet Features
- Round or Elongated styles available
- ADA compliant
- HET (High Efficiency Toilet) 1.28 gpf (4.85 lpf)
- Improved flush design for one-flush operation
- White finish
- Installed flush valve kit
- 2-3/4" Trap
- Slow-close toilet seat included with complete system
- Insulated tank eliminates sweating in extreme climates

Thermally protected with automatic reset

Alarm: 115V with 9-volt battery backup (battery included)

Tank Material: ABS

Cutter Blades: Stainless Steel 440A hardened to Rockwell 54c

Power Cord: 18-3, 8', white, right-angle plug holds close to wall

Maximum Fluid Temperature: 104°F, 40°C

Note: Maximum shut-off head is 36’. Usable maximum head - assuming 150’ of lateral discharge through 1’ pipe is 25’. Consult factory for proper sizing and calculation of friction loss.

Performance

- US Gallons Per Minute
- Liters Per Minute
- Total Head in Feet
- Total Head in Meters

Extension Pipe #K001184 (sold separately)
Includes decorative trim ring for a more professional looking installation. 18’ length works with 2” x 4” or 2” x 6” wall.
