

# QUIET CHECK VALVES

# Liberty Pumps®

A Family and Employee Owned Company

## Quiet Check Valves

**QCV150** 1-1/2"

**QCV200** 2"

- Socket-weld connection with threaded union
- Heavy-duty PVC
- Angled seat reduces "water hammer" effect
- 150 PSI rated at 72°F
- Vertical or horizontal installation
- Less friction and easier pumping due to full port design

## Quiet Ball/Check/Union Combo

**QBCV150C** 1-1/2"

**QBCV200C** 2"

- Compression-style connection
- In-line shut off and back flow prevention combination
- Heavy-duty PVC
- Angled seat reduces "water hammer" effect and flow reversal
- 150 PSI rated at 72°F
- Vertical or horizontal installation
- Less friction and easier pumping due to full port design

## Clear Quiet Check Valves

**QCV150C-CL** 1-1/2"

**QCV200C-CL** 2"

- Compression-style connection
- Heavy-duty clear PVC
- Angled seat reduces "water hammer" effect
- 150 PSI rated at 72°F
- Vertical or horizontal installation
- Less friction and easier pumping due to full port design
