

SJ10-SERIES

Water Powered Back-Up Pump

Liberty Pumps®

A Family and Employee Owned Company

Protects your basement during a power outage or main pump failure!

Requires no electricity

Features

- Accepts 20PSI up to 100PSI inlet supply pressure**
- Fully automatic
- High-output flow rates
- Compact design
- Fully assembled
- 1-1/2" Discharge
- Works off municipal water supply*
- 3/4" NPT water inlet connection
- cUPC® listed (IAMPO PS 119)
- SharkBite Max™ inlet connection accepts PEX, copper or CTS CPVC 3/4" line
- Unmounted elbow allows for horizontal discharge

Models

- SJ10** Standard water-powered back-up pump (no alarm)
- SJ10A** Water-powered pump with alarm
- SJ10A-EYE** Water-powered pump with NightEye® wireless enabled alarm

SJ10A-EYE

Wireless Enabled SumpJet®

The SumpJet® with NightEye® wireless technology provides the ultimate in basement protection. Whether at home or anywhere in the world, receive a notification on your smart device when your back-up pump has activated.

Features

- Free NightEye® app
- Apple® iOS and Android® compatible
- No service or subscription fees (message and data rates may apply)
- Immediate notification of your SumpJet® activation
- High water level notification
- Low basement temperature warning - user defined setting
- Easy setup, connects with simple BlinkUp™ technology
- Super bright red LED alarm ring
- 86 dB audible alarm
- 9-Volt battery backup
- Silence and test alarm remotely through the NightEye® app
- Auxiliary contacts for connection to other home security systems

Patent: See
LibertyPumps.com/en-us/patents

NOTE: During power outages, your home's wireless router will not be operational and unable to send signals to your mobile device unless on a backup power source. The alarm device mounted in the basement will still activate using a 9-Volt battery.

SJ10-Series

Features

Adjustable stainless hose clamp with bi-directional mounting
Removes 2 gallons of water for each 1 gallon used (based on 5' lift)
Fully assembled, compact design
Built-in screen with removable foot valve
Constructed of durable PVC

Specifications

Major Height: 21.6"

Major Width: 5.1"

Weight: 6 lbs (standard model)

Inlet Connection: 3/4" SharkBite Max™ fitting

Discharge Size: 1-1/2"

Construction: PVC

Built-in Check Valve at Water Inlet

Additional back flow protection is required. Check with local plumbing codes prior to installation.

Maximum Fluid Temperature: 130°F

Important: Minimum recommended pit diameter is 18". The SJ10 works in conjunction with your main sump pump. Make sure you have adequate pit size to properly install the SJ10 without float switch interference.

Typical Installation

* The SJ10 requires an uninterrupted water source to operate. If you have a well pump, the SJ10 will not operate during power outages.

**SJ10 pumping performance varies with inlet water source pressure and pumping head.

See complete specifications and performance chart for expected flow rates.

SharkBite Max™ is a registered trademark of the RWC.
